PUBLISHERS NOTE

The information in this Directory is gathered by an actual door to door canvass and is compiled in a way to insure maximum accuracy.

The publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors or omissions, hence no responsibility for same can be or is assumed.

The publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next edition of the Directory.

AND GENERAL INDEX

R. L. POLK CO., publishers of more than 1,400 city, county, state and national Directories, present to subscribers and the general public, this, the latest edition of the Ames City Directory, which also includes Nevada, Story County Directory.

Confidence in the growth of Ames' industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Ames to the world.

The enviable position occupied by R. L. POLK & CO.'s Directories in the estimation of the public throughout the country has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Ames and Nevada Directory will fulfill its mission as a source of authentic information pertaining to the community.

This publication also contains a Story County Directory, printed on white paper immediately following Numerical Telephone Directory.

Four Major Departments

The four major departments are arranged in the following order:-

- I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business Section, which embraces a list of the names and addresses of all business and professional concerns of Ames and Nevada, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the communities. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In busy and diversified communities like Ames and Nevada, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.
- II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns of Ames is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Ames, and the name, official personnel, nature and address of each firm and corporation in the city. A similar list for Nevada is shown farther on in the Directory.
- III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE for Ames is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner-occupied homes, the listing of telephone numbers, new householder symbols and Zip Code numbers. A similar list for Nevada is shown farther on in the Directory.

IV. THE NUMERICAL TELEPHONE DIRECTORY for Ames is the fourth major department, printed on blue paper. A similar list for Nevada is shown farther on in the Directory.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site, and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Ames and vicinity.

The Ames Directory Library

Through the courtesy of the publishers of the Ames City Directory, a Directory Library is maintained in the offices of the Ames Public Library, for free reference by the general public. This is one of more than over 800 Directory Libraries installed in cities and towns throughout the United States, Canada and Puerto Rico through the courtesy of your Publisher.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

R. L. POLK & CO., Publishers.

The National Animal Disease Center, Ames, Iowa, is the United States Department of Agriculture's laboratory for investigation of livestock and poultry diseases that occur in the United States. Completed and occupied in 1961, it is a complex of fire-resistant buildings located on a 318 acre tract of land approximately three miles northeast of the city. Constructed for approximately \$16.5 million. The laboratory with an operating budget in excess of \$8.0 million annually, each year continues to expand in research and laboratory facilities. This, the world's most modern veterinary research facility, requires as many utilities and services as a small city. Many of the animals used in the various research projects are reared at the Animal Production Unit, which is located approximately one and one-eighth miles south of the main laboratory on a site consisting of some 45 acres. The laboratory employs approximately 500 persons, one-fourth of which are scientists-research veterinarians, microbiologists, pathologists, biochemists, physicists and other biological scientists. Many support employees such as laboratory assistants, technicians and administrative personnel are also employed.

The research aims and purposes of this laboratory are to develop basic and applied information on infectious and non-infectious diseases of animals that rob the American farmers of approximately \$2 billion annually, and decrease the potential of an adequate supply of animal protein to the consumer Investigation of each disease entity is conducted by a team of scientists who have different and specialized training.

In addition to the research program, two USDA veterinary regulatory groups have programs associated with the laboratory. These include setting standards and testing veterinary biologics for safety, efficacy, purity and potency, and providing nation-wide diagnostic services to support Federal programs for the control and eradication of animal diseases.

THE IOWA STATE HIGHWAY COMMISSION

The responsibility of the Iowa State Highway Commission is to provide the road user with as fine a system of highways as is economically possible, and to protect that investment by continuous maintenance for safe year-round travel.

Created in the dirt road days of 1904 to make investigations of road conditions and to advise local authorities, the Iowa State Highway Commission to-day reflects the increasing awareness by Iowans of the importance of highway transportation to the state's development and progress.

The five members of the Commission, appointed by the Governor, establish organization policies. The administration of those policies is the responsibility of the Director of Highways, who is selected by the Commissioners.

Basic functions of the Commission are to:

- Develop and maintain a current inventory of all highway facilities in the state.
- 2. Analyze and project highway needs.
- Plan, program and design the necessary highway facilities including toll bridges, to meet these needs.
- Acquire right of way, let contracts and supervise construction of new highway facilities.
- Maintain highway facilities in a safe and well-kept condition for the motoring public.

The Highway Commission today is responsible for 8,974 miles of rural primary highways, 1,297 miles of primary extensions in cities and towns, 271 miles of state park and institution roads and for joint control with the 99 county boards of supervisors over 90,000 miles of secondary roads.

The planning, construction and maintenance of its highways is the state's second biggest business, next only to education. Of the nearly 113,000 miles of roads and streets in Iowa, the 10,271 miles in the Interstate and primary system are the direct responsibility of the Highway Commission.

More than 1,100 persons are employed in the Highway Commission state headquarters in Ames. More than 3,000 additional personnel are employed by the commission throughout the state. This total includes Commission maintenance forces at 165 garages in the 99 counties.

Central offices of the Iowa State Highway Commission in Ames, completed in 1961.

The Commission has six district offices, 23 resident construction offices and 24 maintenance offices.

Salaries paid to Ames area employees in 1973 totaled \$12.5 million. The state wide payroll for the Highway Commission in 1973 was \$40.4 million.

During fiscal 1973 \$185 million was expended on the primary system. Highway construction that year accounted for more than \$119 million and maintenance more than \$27 million.

In that same year the Commission awarded nearly \$77 million in highway construction contracts and completed more than \$117 million worth of highway construction.

AMES PUBLIC SCHOOLS

With modern, well-equipped school buildings and with modern educational philosophies and practices, the Ames Public Schools offer a splendid opportunity for the education of the children of the city. The school plant comprises twenty buildings, with a present total new replacement value of \$21,210,000. This plant includes the new Senior High School; the downtown Central Junior High School Building and its splendid auditorium and gymnasium facilities; the new Welch Junior High; the Beardshear, Crawford, Edwards, Fellows, Meeker, Mitchell, Northwood, Roosevelt, Sawyer, Whittier and Willson School for the trainable mentally retarded; and the Maintenance Building. The Lincoln Elementary School has been converted to Central Administration.

Ten projects were completed during the past eight years. A stadium with a well-lighted football field and an all-weather Grasstex track was used for the first complete football season in the fall of 1966. Connected with this stadium is a senior high school gymnasium that was dedicated in February, 1967. A joint city-school recreation building housing a 75' x 75' swimming pool is connected with the gymnasium and is used jointly by the school and city. A new elementary school, the Fellows School, was dedicated in April, 1967. A new Welch Junior High School for the west side of Ames was opened in the fall of 1968. Additions were built to elementary schools to provide them with needed classrooms and Central facilities, particularly instructional material centers. Two new elementary schools were completed in 1970, Mitchell and Northwood. In December 1972, the Fine Arts Wing of Ames Senior High School was dedicated. It provides outstanding facilities for art, drama, and music and is used extensively for school and community activities.

During the past nineteen years ten different bond issues were successfully carried to authorize the construction of five elementary schools, additions to nine elementary schools, remodeling of junior high school facilities, a new high school, and a new junior high school. The most recent of the ten successful bond issues, the \$3,900,000 issue approved in March, 1968, provided funds to build two new elementary schools, additions to four elementary schools, an addition to the Senior High School, and an addition to the Welch Junior High School. There were a total of 112 elementary classrooms with related facilities and 67 secondary classrooms in these construction projects.

Ames Senior High School

The new Senior High School was constructed a unit at a time as funds permitted on a beautiful, spacious 74 acre site. Some additional well-located sites are being acquired on which to build more schools to meet the needs of the growing enrollment.

Each year the average teaching load has been kept at about 25 children per teacher by providing additional classroom space and more teachers. The central office staff has also been increased during the past three years by the employment of a Superintendent for Curriculum and Instruction and an Instructional Materials Coordinator to continue to improve the services to individual students and classroom teachers.

Pupil enrollment, exclusive of about 2,000 people in adult education, is 5,750. There are approximately 360 teachers and other professional staff members and 200 other personnel—secretaries, food service employees and custodians. The Ames Schools have a fine staff of supervisors who give guidance in the curriculum areas at all levels. There also are special education services for children at all levels.

The Iowa State Center

THE IOWA STATE CENTER

C. Y. Stephens Auditorium—seating 2,660 for concerts, opera, ballet, drama and similar events. Special attention to acoustical qualities. Facilities for motion pictures and closed-circuit television.

The James J. Hilton Coliseum—The Hilton Coliseum is the largest of the four buildings planned in the Iowa State Center complex. Seating for 14,000 for commencement exercises, stage and arena programs too large for auditorium—theater presentation, meetings, banquets, exhibits and displays. Good acoustics. It is also used for basketball and has a ice floor for hockey, ice shows and ice skating.

Fisher Theater-This intimate theater seats 424 patrons for student plays, small musical groups, lectures, dance recitals and similar programs.

Scheman Continuing Education Building—The final building, now under construction, is the Scheman Continuing Education Building. It is designed to serve approximately 30,000 persons who each year visit the campus for meetings, extension courses and conferences. It contains a 400-seat auditorium and 14 conference rooms.

I. S. U. Stadium—Separate from, but attached to the ISU Center is the new football stadium, scheduled for completion in the fall of 1974. The stadium will share parking facilities with the center.

Conclusion

From the foregoing factual data, it can be seen that Ames offers many advantages—Social, economic, educational. It has an exceptionally high health rating; it is a city of beautiful homes, situated in one of the fairest states in the land, in the heart of the world's wealthiest agricultural region. Ames possesses virtually every element vital to the social and economic welfare and personal happiness of the individual, and every element of success for the small business or small industry.

ABOUT A LOCALITY

How is the quickest way to get there?

Who lives at a given address?

Is there a telephone at the address or nearby?

What is the character of the neighborhood?

Is it a "home-owners" section?
What is the nearest street corner?

What is the nearest store, church, school, garage, shopping center, parking lot, etc.?

Where are the public and office buildings?

If it is a business location, what business?

If an office building, what firms or professional people are in what rooms?

ABOUT A BUSINESS CONCERN

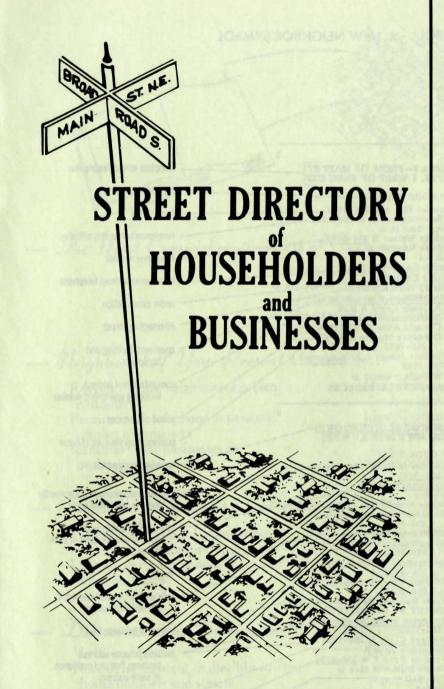

What is the nature of the business?

What is the correct name and address?

Is it a Proprietorship, Partnership or Corporation?

Who are the partners, owners, or officers?

Who else in same or similar lines?

The Street Directory information is secured by an actual door to door canvass and includes these important features:

ADVERTISING PRINCIPLES

- I. Good Advertising maims to inform the consumer and help him to buy more intelligently.
- 2. Good Advertising wtells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.
- 3. Good Advertising --- conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
- 4. Good Advertising recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

NUMERICAL TELEPHONE DIRECTORY BLUE PAGES

ABOUT THE FIRM:

Who called me? When your call back message gives a telephone number only—or includes a common surname such as Jones, Smith, Brown, etc.—this Numerical Telephone Directory will assist in determining correct firm name. Make use of both Alphabetical and Street Guide information to establish names of officers, owners or partners, products and services, and correct address. Properly identify firm and caller and have needed records, file or correspondence on hand before returning call.

ABOUT THE INDIVIDUAL:

Who called me? When only a telephone number is known, this Numerical Telephone Directory will assist in determining the name of the subscriber—with this information combined with other sections of your City Directory you may quickly establish such information as wife's name, place of employment, job title, home address, business address and telephone number.

The City Directory

represents the City and its institutions in every corner of these United States

Are You Properly Represented In It?

The Classified portion catalogues the professions and goods handled here

ARE YOU LISTED UNDER YOUR PROPER HEADING SO THE PROSPECTIVE BUYER CAN FIND YOU?

"Think It Over"

VITAL INFORMATION AT YOUR FINGER-TIPS!

Tens of thousands of people who were formerly strangers to the City Directory are consulting it on questions of citizenship, employment, sources of supply, communication, etc. Also, Directory usage is up among regular subscribers.

Know Your Directory SYMBOLS

Two important symbols are used in your City Directory. The symbol "r," before an address stands for "Resident." That person resides at that address but is not the head of the family or family head. The symbol "h" stands for "Householder"—the person in whose name the home is occupied.

The Street Directory information is secured by an actual door to door canvass and includes these important features:

Street Name and Address

Occupants

Home Owners

Telephone Numbers

New Householder This Edition

Apartment Residents

Office Building Occupants

Types of Business or Profession

Street Description

Zip Codes

Street Intersections

Addresses showing No Return indicate that after repeated efforts the publisher was unable to obtain information.

CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of R. L. Polk & Co. printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertising or subscriptions.

R. L. Polk & Co.

Power of Advertising

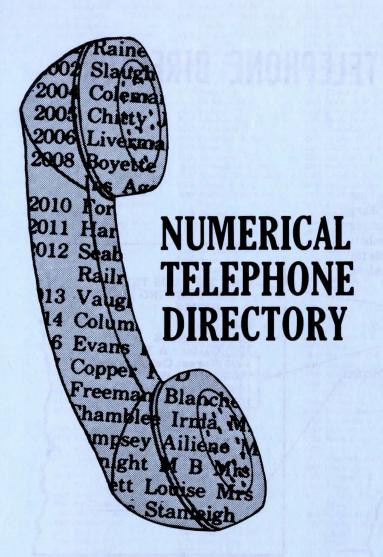

THE CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

Our Service Cannot Be Excelled

R. L. POLK & CO.

The Telephone Numbers and names in this Directory were supplied to us during our regular door to door canvass.

This Directory is designed to assist you in providing additional information when only a telephone number is available.

NUMERICAL TELEPHONE DIRECTORY BLUE PAGES

This Directory takes the "mystery" out of blind numbers. It lists telephone numbers in numercial sequence, making it easy to "decode" blind phone numbers in classified ads—especially valuable for real estate agencies, used car dealers, etc.

WHAT'S IN A PHONE NUMBER?

ABOUT THE FIRM:

Who called me? When your call back message gives a telephone number only—or includes a common surname such as Jones, Smith, Brown, etc.—this Numerical Telephone Directory will assist in determining correct firm name. Make use of both Alphabetical and Street Guide information to establish names of officers, owners or partners, products and services, and correct address. Properly identify firm and caller and have needed records, file or correspondence on hand before returning call.

ABOUT THE INDIVIDUAL:

Who called me? When only a telephone number is known, this Numerical Telephone Directory will assist in determining the name of the subscriber—with this information combined with other sections of your City Directory you may quickly establish such information as wife's name, place of employment, job title, home address, business address and telephone number.

Out of Sight--Out of Mind

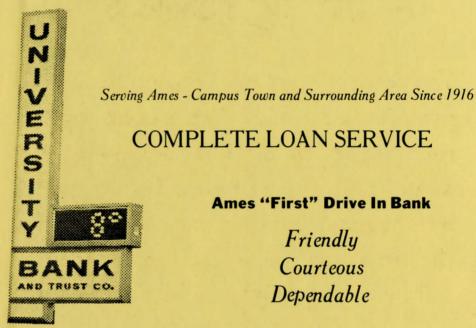

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.
